Notice Regarding Repricing of Milk, Beverages, Yogurt, Infant formula, etc.

Morinaga Milk Industry Co., Ltd. hereby announces that it will perform repricing of milk, beverages, yogurt, etc. starting with shipments on Tuesday, November 1, 2022, and perform repricing of infant formula, etc. starting with shipments on Thursday, December 1, 2022.

The Japanese dairy business currently faces a challenging environment due to soaring feed prices and rising raw material milk production costs such as energy costs. In order to ensure maintaining raw material milk production base and a continued supply of safe and reliable domestic products under these conditions, an agreement has recently been reached with the producers' association to raise the trading price of the raw material milk for milk and yogurt, starting in November 2022.

In addition, the prices of imported dairy ingredients, packaging materials and energy costs have risen rapidly, furthermore labor and distribution costs have also grown due to an intensifying labor shortage.

Although Morinaga Milk has worked to reduce costs through voluntary efforts, it has reached a level that can no longer be absorbed by corporate efforts alone. The company has therefore decided to enact repricing, as described below.

Going forward, Morinaga Milk will continue to do its utmost to reduce costs as well as put safety and reliability first, and strive to provide products with value to customers.

1. Targeted Products

Milk, Beverages, Yogurt, Infant formula, etc.
