HQ'S GLOBAL WEBSITE NOW MULTILINGUAL: BRIDGING LANGUAGE BARRIERS

Morinaga Milk Industry Co. Ltd. has introduced a multilingual system on its global website (<https://morinagamilk.co.jp/english/>), enabling customers and stakeholders to access information in addition to English, in Vietnamese, German, and Urdu with a single click. To use this feature, users simply need to click on the button located at the top right corner of the website and select their preferred language. This initiative demonstrates our commitment to enhancing user experience and breaking down language barriers, thereby fostering communication to users in the countries where we develop our business. It's important for users to note that this system is powered by advanced AI translation technology, and does not extend to PDF files. The introduction of this system marks a significant milestone in our journey to bringing "Health" and "Happiness" to the world.
