Morinaga Milk Exhibits at Growth Asia Summit 2024 in Singapore

Morinaga Milk participated in the Growth Asia Summit, a conference on functional ingredients, held in Singapore from July 16th to 18th. We would like to share our experience!

The Growth Asia Summit is a conference where approximately 250 people gather annually from the nutrition and wellness industry, nutrition-related companies, industry associations, research institutions, market analysis agencies, etc. They present new research and lectures on their functional ingredients. Not only probiotics, but also lectures on various ingredients such as HMOs and proteins are conducted. Among them, Morinaga Milk participated in the event as a diamond sponsor, and in addition to enlightenment activities at the booth, we had presentation opportunities, such as introduction of our probiotics and supplement products, and our research related to Healthy Ageing.

We would like to continue our marketing activities to convey the goodness of our probiotics. Please follow us on LinkedIn for our activities.
